Comments.

(1) The two troop trains probably came from the Greifswald-Neubrandenburg area where small elements of all units subordinate to the Third Shock Army began a field exercise on 18 February 1952.

25X1

25X1

25X1

(2) the train carried a tank unit

25X1

25X1

This indicates that the tank firing practice by small components of all tank units in the Soviet Zone of Germany will be resumed at Lotzling Heath as has been done during the last two summers.

(3) the train probably came from the Jueterbog area where components of the division moved on 18 February 1952.

25X1

25X1

(4) The rocket launchers belong to the unidentified rocket launcher regiment of the Second Gds Mecz Army in Schoenwalde.

25X1

(5)

(6)

(7) The troop train carried a component of the unidentified AAA division of the Fourth Gds Mecz Army. The unit probably came from the Fuerstenwalde post from which all components of the division departed by rail on 27 February 1952.

25X1

25X1

a train with a component of the same division going toward Beeskow via Frankfurt/Oder. As the train observed at the Jueterbog railroad station did not have a locomotive, the troops were possibly unloaded there.

(8) The trucks observed belong to headquarters units of the First Gds Mecz Army.
